

Steps to Link Passport with Vaccine Certificate

You can easily link your vaccine certificate to your passport via the CoWIN [app](#) or [website](#)

- Go to the **CoWIN** website through **WWW.COWIN.GOV.IN** and login to your account on the CoWIN website using your registered mobile number.

Step 1 Select "**Raise an Issue**" from the "Account Detail" tab.

Step 2 From the available options, select "**Add Passport Details**" and proceed.

Step 3 On the redirected page, **click on a member's name** whose passport details you would like to add.

Step 4 Next, fill in the beneficiary's **passport number** correctly and tick the Dialogue box. Hit "**Submit**".

(This is a very important step as you can only change the passport details once, hence be very careful as no mistakes can be made here. Once the beneficiary has been selected, you can add the same in the 'Enter Beneficiary's Passport Number' section.)

You will receive a confirmation message on your registered mobile number.

Another notification confirming that the request has been updated successfully.
